

# Indoor Products

Voltec indoor extension cords offer the most popular lengths and styles for use in the home and office.

All of Voltec's indoor extension cords carry a limited lifetime warranty against defect.

HOUSEHOLD PRODUCTS

### Three Outlet Cords

Choose from two or three conductor SPT-2 extension cords in brown, white, and yellow. Made from high quality materials, our cords are manufactured with impact resistant molded plugs, connectors, and safety covers for added protection. Use these cords to convert one outlet into three outlets, or to bring power to where you need it.

### Appliance Cords

For heavy-duty indoor applications Voltec offers a rugged line of SPT-3 appliance cords. These durable cords are manufactured with a right angle plug in either 15 or 20 amp configurations. While intended for use with air conditioners, range and dryers, and other high output appliances, these cords are also a good choice for other indoor cord applications.
